

Martin® SQC2S™ Cleaner with Chevron Blades

The [Martin® SQC2S™ Cleaner with Chevron Blades](#) uses rubber or urethane blades to remove carryback yet gently step over belts with ribs, chevrons, and cleats.

BENEFITS

- Built for Tough Conditions**
 Rugged construction withstands punishing applications, like high-speed belts and high-tonnage loads.
- Easy Cartridge Removal**
 The procedure is simple: remove pin, slide out cartridge, service, and return.
- Easy Adjustment of Cleaning Pressure**
 Martin® SQC2S™ Tensioners allows simple alteration of blade-to-belt pressure to maintain cleaning efficiency regardless of blade wear. Lock pin keeps tensioner in place to maintain constant tension.
- Fits in Tight Spaces**
 Compact design allows installation in close quarters; narrow profile resists material buildup.
