TECHNICAL DATA SHEET

Martin[®] ApronSeal™ Double Skirting

Part Numbers

Heavy-Duty

100725

The <u>Martin[®] ApronSeal[™] Double Skirting</u> is a primary and secondary sealing strip in a dual-sided single elastomer.

The self-adjusting secondary seal utilizes Martin Engineering's patented constant angle radial pressure technology to provide a more effective dust seal.

Benefits

- · Provides effective sealing on higher speed belts.
- Offers dual life—dual sealing system in a one-piece construction.
- 70 Shore A EPDM durometer rubber composite offers good chemical resistance and low-abrasion index characteristics.
- Available in continuous lengths of 10 meters.
- Applicable on 0°, 20°, 35°, and 45° troughing angles.

Accessories Order Info

Product	Part #
Heavy-Duty Angle Clamp Weldment w/hardware inc. 5/8-11 studs, nuts, & washers	34339A1000
Martin [®] ApronSeal ™ Quick Release Clamps fits standard & low-profile angle clamps	36273

ANGLE CLAMPS

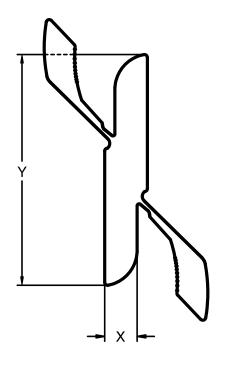

Angle clamps are used to clamp the Martin[®] ApronSeal[™] to chute wall, approximately 9 in. (229 mm) of head space is required for proper mounting.

Angle clamps are 1meter long with mount studs on 12-inch (305-mm) centers. Center-pivot angle clamps are 3 ft (911 mm) long with clamp mounts on 18-inch (457-mm) centers.

Mounting height for studs and clamp mounts will vary with troughing angle and type of Martin[®] ApronSeal[™] used. Consult Martin Engineering for mounting details.
