Martin® Thermo Safety Shield

P/N 38189-4F shown with optional flanges and lock.

Air Cannons are necessary equipment for high-temperature operations such as lime kilns, cement plant preheater towers, and clinker coolers.

The **Martin® Thermo Safety Shield** acts as a safety barrier to allow timely and safe maintenance of air cannon systems.

It protects employees from exposure to severe temperatures so that maintenance can take place safely and productions stays on schedule.

BENEFITS

- **Allows air cannon system to receive safe and timely maintenance.**
- **Protects employees from severe temperatures.**
- **Encourages lock out/tag out.**
- **Simple to install and operate.**
- **Fits any make of air cannon.**

ABC's of Efficiency for High-Temperature Processes

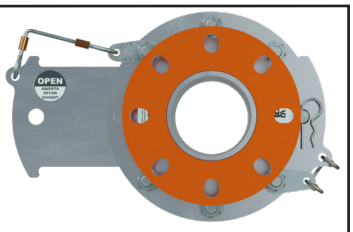
A. Production ***MUST*** Go On.

B. Air Cannon ***MUST*** Work or Personnel Must Fix.

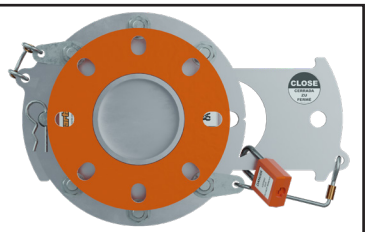
C. Personnel ***MUST*** be Protected When Performing Maintenance.

Therefore:

Martin® Thermo Safety Shield *MUST be installed*.



Open Position
For Normal Air Cannon Operation



Closed Position
For Air Cannon Inspection and Maintenance.
