1. Wear protective clothing and gloves when handling the Belt.

2. Ensure the Belt is completely dry before installing.

3. Align the Belt and Cleaner assembly with the Tensioner and Mounting plates.

4. Measure the length of the Belt and adjust the Cleaner to fit.

5. Secure the Belt in place using the Tensioner and Mounting plates.

6. Test the Belt's movement to ensure proper alignment.

7. Tighten the Cleaner to the recommended tension in the manual.

8. Check for any loose or damaged parts before operating.

9. Regularly inspect and maintain the Belt and Cleaner to ensure optimal performance.

NOTES:

- Use a cable clip at the bottom of the Cleaner to hold the Cable in place.
- Ensure the Tensioner is aligned with the Mounting plates.
- Check for any irregularities in the Belt's movement.
- Regular maintenance will extend the life of the Belt and Cleaner assembly.
