

MAXIMUM CLEANING PERFORMANCE FOR MAXIMUM PRODUCTION

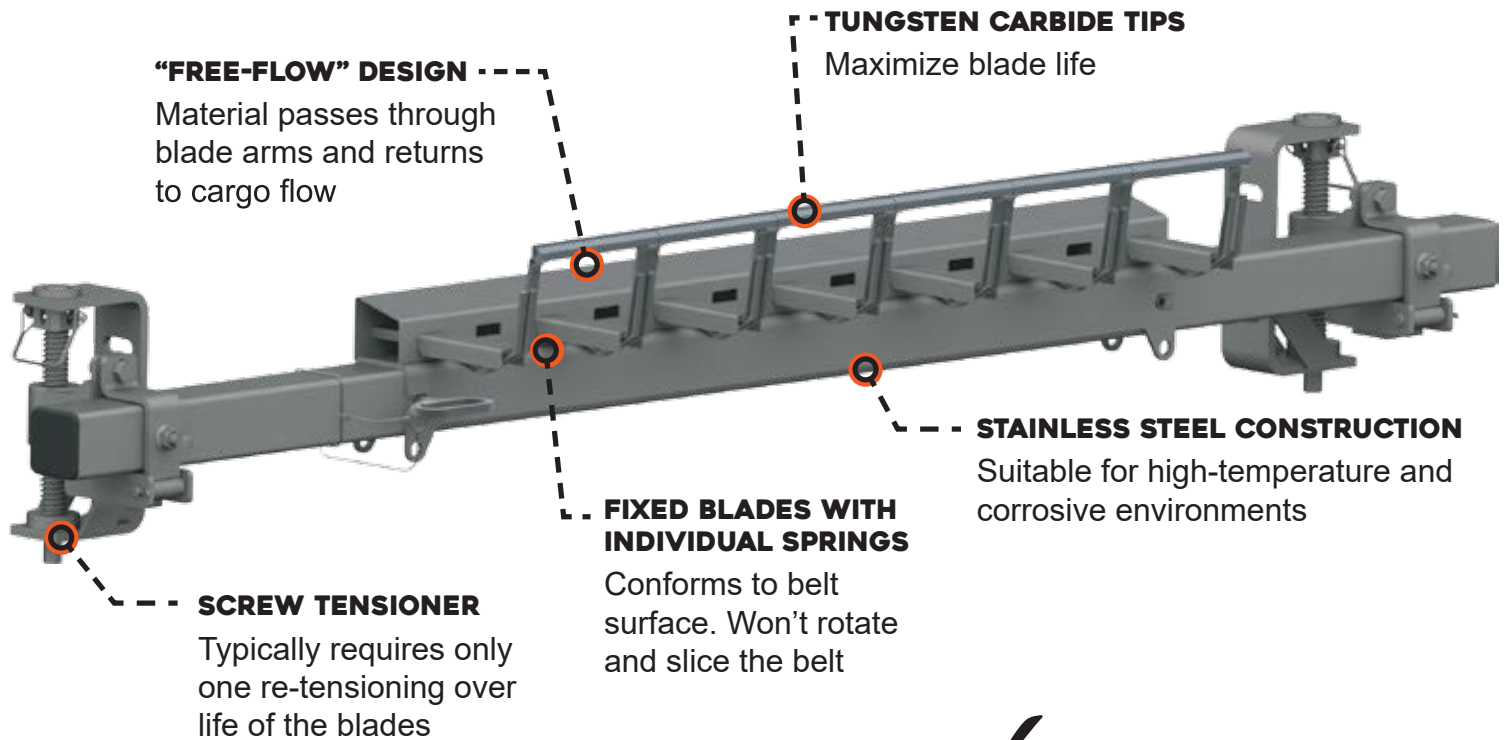

CLEANSRAPE® Secondary Cleaner

Optimum cleaning performance and
longer wear life with minimal maintenance

MAXIMUM + MINIMAL BLADE LIFE + MAINTENANCE

THERE'S NO TIME FOR DOWNTIME

CLEANSRAPE® Secondary Cleaner

“FREE-FLOW” DESIGN

Material passes through blade arms and returns to cargo flow

TUNGSTEN CARBIDE TIPS

Maximize blade life

STAINLESS STEEL CONSTRUCTION

Suitable for high-temperature and corrosive environments

FIXED BLADES WITH INDIVIDUAL SPRINGS

Conforms to belt surface. Won't rotate and slice the belt

SCREW TENSIONER

Typically requires only one re-tensioning over life of the blades

EASY TO SERVICE

Pull the pin and slide the blade cartridge out to perform maintenance outside the chute.

INSTALLS IN TIGHT SPACES

Small footprint installed at 6:00 position accommodates small transfer chutes

Keeps material in the material flow without the need for a dribble chute
